Precautions relating to ingredient

The medicine contains herbal medicine (medicinal leaves, roots, barks, etc.). The color and taste of the tablets may differ slightly, but this will not affect the efficacy.

Precautions

Consultation

●The following persons should consult a physician, pharmacist, or registered salesperson before taking this medicine.

Patients undergoing medical treatment from a physician

Patients who have experienced allergic symptoms associated with medicines, etc.

●If the following symptoms are observed after taking this medicine, these may be adverse reactions, so immediately discontinue the taking of this medicine, and show package insert to your physician, pharmacist, or registered salesperson for a consultation.

Skin:rash/redness,itching

● When symptoms do not improve even after taking this medicine for about 2 weeks, stop taking this medicine and consult a physician, pharmacist or registered salesperson, being sure to take package insert with you.

Precautions for storage and handling

Store in a cool, low humidity place away from direct sunlight.

Store the product beyond the reach of children.

Do not transfer the medicine to other containers. (It may lead to misuse or quality deterioration)

Discard the filling in the bottle immediately after opening the lid.

(If the filling is returned to the bottle, it may absorb moisture, degrading the quality. The filling prevents tablets from breaking during transportation.)

Tightly close the bottle cap after each use.

(Other smells are transferred, and moisture degrades the quality.)

Do not take the product past the expiration date.

Enter the date when you open the bottle in the "Date of opening" columns on the box and bottle.
Once you open the package, take it as soon as possible, ideally within 6 months after opening to ensure the quality.
