For eye fatigue, blurred vision and itchy eyes

IRIS

Class 3 OTC drug

<Eye Drops>

- ◆ IRIS has a cool and refreshing feel and is effective for treating eye ailments such as eye fatigue, blurred vision, and itchy eyes.
- ◆ If you experience unpleasant symptoms such as eye fatigue from using a computer or driving a car, or irritation from dust or chlorine in a swimming pool, it is important to seek immediate treatment.

Precautions for Use

Things To Consult On

- 1** The following individuals should consult with their doctor, pharmacist, or a registered seller before using this medicine

- (1) Persons receiving treatment from a doctor.
- (2) Persons with a history of allergic reactions caused by medicines, etc.
- (3) Persons with the following symptoms:
Intense eye pain
- (4) Persons who have received the following diagnoses:
Glaucoma

- 2** If any of the following symptoms appear after you have used this medicine, you may be experiencing side effects. As such, please discontinue use immediately and consult with your doctor, pharmacist, or registered seller, bringing a copy of this instruction sheet with you

Relevant Area	Symptoms
Skin	Rash, redness, itching
Eyes	Red eye, itching, swelling

- 3** In case of the following, discontinue use and consult with your doctor, pharmacist, or registered seller, bringing a copy of this instruction sheet with you.

- (1) Your blurred vision does not improve.
- (2) Your symptoms do not improve after using the product for about 2 weeks.

Efficacy

Eye fatigue, blurred vision (e.g. with excessive eye discharge), itchy eyes, conjunctival hyperemia, blepharitis (inflammation of the eyelids), eye inflammation caused by UV rays or other light rays (e.g. snow blindness), prevention of eye diseases (e.g. after swimming, dust and sweat in the eyes), and discomfort when wearing hard contact lenses

Use Cases

For eye fatigue and red eyes when using a computer, etc.

Blurred vision due to driving a car

To prevent eye diseases after swimming

Usage/Dosage

Apply to eyes 3 to 5 times daily, 2 to 3 drops each time.

Note:

- (1) Strictly follow the prescribed usage and dosage.
- (2) If this medicine is being used by a child, ensure it is used under the guidance and supervision of a parent or guardian.
- (3) Do not let the tip of the container touch your eyelids or eyelashes. Do not use if the solution is cloudy.
- (4) Do not use while wearing soft contact lenses.
- (5) Use only for application in the eyes.

Ingredients

Ingredients	Amount	Action
Neostigmine methylsulfate	0.002%	Improves the ability to focus the eyes.
Taurine	0.5%	Provides important nutrition to the eyes and relieves eye fatigue.
L-aspartic acid	0.5%	
Magnesium and potassium (equal mixture)		
Pyridoxine hydrochloride (vitamin B ₆)	0.1%	
Dipotassium glycyrrhizinate	0.05%	Anti-inflammatory effect to suppress eye inflammation.
Chlorpheniramine maleate	0.02%	Antihistamine effect to relieve itchy eyes.
Chondroitin sulfate sodium	0.1%	Protects the eyes by preventing dryness of the cornea.
Allantoin	0.1%	Anti-inflammatory effect to relieve eye inflammation.

Additives: Tonicity agent, boric acid, pH-adjusting agent, benzalkonium chloride, chlorobutanol, methanol, borneol, dl-camphor, polysorbate 80, disodium edetate

Note:

You may feel a sweet taste in your mouth after dropping this product into your eyes. This is caused by the active ingredient dipotassium glycyrrhizinate, so there is no need to worry.

Precautions for Storage and Handling

- (1) Ensure the cap is tightened securely and store the medicine in a cool place that is out of direct sunlight.
- (2) Store this product out of reach of children.
- (3) Do not transfer to another container. (This may result in misuse or a change in quality)
- (4) Do not share eye drops with anyone else.
- (5) Do not place eye drops in high-temperature locations, such as on the dashboard of your car. (The container may deform or the quality of the solution may deteriorate.)
- (6) Do not use this product beyond its expiration date. Use this medicine as soon as possible after opening, even if still within the expiration date. (In order to ensure quality.)
- (7) The ingredients may crystallize on the tip of the container or inside the cap depending on the storage conditions. In that case, please wipe away the crystals gently with clean gauze before use.

Precautions and Correct Technique for Eye Drop Application

Precautions

- Avoid contact between the tip of the container and your eyelids or eyelashes. Eye discharge or microorganisms may contaminate the solution or cause it to become cloudy.

Applying the Product Correctly

- Wash your hands thoroughly and avoid touching your eyes directly with your fingers.
- Look up slightly and pull your lower eyelid down with your fingers. Apply drops onto the inner side of your eyelid.
