## Precautions for storage and handling

Avoid direct sunlight, and store the product in a cool place with an air tight closure on.  
Store the product beyond the reach of children.  
Do not transfer the drug to other containers. (It may lead to misuse or quality deterioration.)  
Do not share the drug with other people.  
Do not leave the drug under high temperatures, such as on a car dashboard. (It may result in the deformation of the container and the degradation of the drug solution.)  
If the drug solution stains your clothes while administering it in your eyes, wash with water immediately.  
Do not use the product past the expiration date. Even within the expiration date, try to use it up as soon as possible once it

is opened (to assure the quality).

The crystalized ingredient may accumulate at the tip of the container and inside the cap depending on the storage conditions. Wipe the crystalized ingredient with a clean gauze.
