

TOKUHON ACE HOT

Class 3 OTC drug

Pain relief/antipruritic/astringent/anti-inflammatory (including cataplasm)

○ Glycol salicylate quickly permeates in the affected site by SIS base and achieves excellent effect on annoying pains. □ The warm stimulus from nonanoic acid vanillylamide and vitamin E improves blood circulation, and softens persistent stiffness. □ The soft base and elastic base cloth enable the plaster to stay fit even on the joints. □ The mildly scented, skin color plaster is inconspicuous.

Indication

Muscular fatigue
joint pain, lumbago, muscular pain, pain due to stiff shoulders, contusion pain, bone fracture pain, pain associated with sprain (sprain pain), frostbite,

Dosage and administration

Peel the paper liner on the drug surface, and adhere it onto the lesion several times daily.
The use of the drug for children should be supervised by a parent. Children under 13 years old should not use this drug because it may cause tingling sensations.
Clean the affected site before using the drug.
If your skin is sensitive, do not apply the drug to the same site continuously.
Put a small piece of the drug on the inner arm before use, and confirm that no such symptoms as rash/redness, itching, eruption, and pain occurred.
Remove the drug at least 1 hour before taking a bath. If you take a bath immediately after removing the drug, you may experience tingling sensation.
Do not warm the skin area to which the drug is applied with kotatsu or electric blanket.
